HIGH GRADE ORE IN BOREHAM MINE

In drifting east on the 300 foot level of the Grass Valley-Boreham mine the main chute of high grade ore was cut. This chute extend up to the surface. The drift on the 200-Sfoot level shows high grade ore for a distance of 10 feet, assying from $50 to $300. Previously about $5000 was shot out in one round from this same level.

Pumps are now being lowered, new tracks are being put down and stope bins constructed preparatory to stoping which will begin at once. A steel covering is being built over the mill and as soon as this has been accomplished the mill will start crushing.

The people of Nevada City have always looked upon this property as a very promising one, and we are pleased to see the encouraging developments being made and Mr. Witte, president of the company is to be complimented on his staying qualities, as he has been developing this property now for over 18 months.

The mine is equipped with electric power and has a small stamp mill which will be used while a 10-stamp mill will be installed. Machinery for a 75 ton capacity is now on the ground and Mr. Witte states that he will get them under operation as soon as possible.

Mr. Witte is a Los Angeles man but spends a great deal of his time at the property.

0

L. A. CHAPTER MINING ASSN. HOLDS MEETING

By unanimous vote of the Los Angeles chapter of the Mining Association of California, at its first annual meeting held recently at the Engineers' Club, Charles L. Gilmore of Sacramento was recommended for the position as director of natural resources in the council of Governor Rolph.

Another feature of the meeting was the appointment of a committee, consisting of C. R. Walleck, mine operator; G. A. Joslin, consulting mining engineer; A. R. Law, lawyer, and the chairman, Walter George Clark, consulting engineer, to meet the new commissioner of corporate securities, Mr. Haight, and to discuss matters with him from a mining point of view. That the constitutionality of the Corporate Securities Act is being tested in the courts was shown by clippings read by Edward W. Brooks, chairman of the publicity committee.

State Director B. M. Snyder reported that at the annual meeting of the association and mining congress held at Sacramento on December 6, it was recommeded that gold used in the arts be in tthe future bought direct from the miner, thus probably creating a natural premium, or possibly forcing an artificial one. Chairman Clark said that in his experience this had been suggested years ago in England and caused a European uproar.

For the standing committee on Workmen's Compensation, Roy L. Cornell, on facts compiled by the chapter secretary, Edgar Bush, reported favoring the State Compensation Fund. Dudley N. Humphrey, former corporate securities commissioner for the state of Colorado, gave a talk on the commission's experiences in that state.

0

SCHOOL AT SAN JUAN HAS LIST OF 19 PUPILS

Mrs. Ella M. Austin, superintendent of schools, and Mrs. Clara Weeks, supervisor of rural schools, visited North San Juan Wednesday and found the largest enrollment in a number of years. Nineteen pupils are attending the school, the increase coming from a coupel of new families which have moved into the district.

New desks and other furniture, which has been ordered will soon be installed. Several years ago the old schoolhouse was burned, and prior to the time the new one was erected furniture borrowed from Camptonville was installed in another building.

Mrs. C. Haffey is the teacher.

CENTRAL EUREKA MINE MILLING GOOD ORE

JACKSON, Jan. 23.—(Special)—On account of heavy ground and excessive coasts, the mining in all lateral workings tributary to its 4,8500 foot main incline shaft, and is now confing ore extraction and new development work to its north adjoining Old Eureka property, frequently refered to as the Hetty Green mine acpuired five years ago. The company's 40-stamp mill is treating monthly four thousand tons of ore, which is being drawn from the 2,000 and 2,100-foot levels of the Old Eureka shaft. This shaft has a total depth of 3,500 feet but at present point in it, a station is now being up ofthe downward ertensions of mined above.

It will be at this same point that the new 1,550-foot north drift from the 2540-foot level of the Central shaft will connect with the Old Eureka shaft. This connecting drift, being extended between two parallel veins about 70 feet apart, has thns ly one-third of the distance to its objective point. Its completion will permit the Central Eureka to abdonbon the South Eureka MiningCompany's 2,700-foot shaft, which has been maintained for the last 12 years a san emergency exit andpassageway for mine water from the Central Eureka and ohter workings, thus effe ing, it is estimated by the Central Eureka management, to tha corporation a saving of $2,500. monthly, or $30,000., annually.All water from the Central Eureka and South Eureka mines will thereafter be pumped up the Central Eureka to and through the connecting drift and thence up the Old Eureka shaft to the surface. A fullface of shipping ore, with an eight-inch streak ofhigh grade assaying better than $200., a ton in gold and silver, principally the former, has been expossed in the extension of a drift tunnel on the Rising Sun property, on the Moklelumne River, 19 miles east of Jackson, The property was recently taken over from George Toop, Theodre Toop, Mrs. L.R. Toop and Roy Leithman by Pawl S Webb, of Santa Monica,Calif., formerly chief engineer of smelters for the Cerro de Pasco Copper Corporation in Peru, and W.L.-Aiken, who has been identifed with mining in the far western states for many years. In addition to the claim named,embracing 20 acres, Messers. Webb and Aiken hold a lease and bond on the mineral rights of the adjoining the Henry Toop ranch. years. In addition to the claim named, embracing 20 acres, Messrs. Webb and Aiken hold a lease and bond on the mineral rights of the adjoining Henry Toop ranch ranch. The vein being explored by the tunnel, which has a length of more than 150 feet, is traceable through the claim and for several thousand feet and has an average width of 4 feet on the surface. According to reports, early day operators extracted gold and silver ore to the value of $67,-000, from a 40-foot hole on it in the Rising Sun claim. The property is mechanically equipped for extnsion operatiaons.

E S.. Prather, of Beverly Hills, California, who in November last took over the Lookout Moontain property. Five miles south of Mokeeloumne Hill, has leased 20-stamp mill of Mother Lode Central Mines Co., about five miles distant northeasterly. It will be used in testing and treating ores from the Prather property which is being aggresively developed with a crew of 15 men and a complete mechanioal equipment. A one and a half mile power line is at present being built to the mill to supply eleltriiity for its operation.

0

DROUGHT SUFFERS AIDED RURAL SCHOOL CHILDREN

Sympahy with boys and girls of their own ages in the portoins of 21 states of the American Union who may be suffering hunger and cold actuated the youngsters attending the Indian Flat school to voluntarily contributethe sum of $1.80 to the Red Cross Drought Relief Fund.

The generous response of these young people is greatly appreacted by the officers of the local chapter and they hope the example set by them may be the means of futher increase in the fund.

MINING MAN OF NOTE SUCCUMBS AT RENO

Arthur Asthon Codd, died Monday at his home in Reno, after failing to regain consciousness from a stroke of apoplexy which occurred Saturday afternoon.

Mr. Codd's mining activities were not confined to the state of Nevada alone but having operated in Sierra and Nevada counties as well. During his last visit to Grass Valley and Nevada City recently he planned on reopening another property here.

Codd is survived by a widow, Helen, a son, Ashton R. Codd, and a daughter, Mrs. Edward Drew.

Arthur Ashton Codd was born in San Bernardino county, California, March 7, 1870 and remained in the southern part of the state until he was 21 years old Going to Arizona he became interested in a reclamation project on the Gila river. During the boom days of Goldfield, he was one of the foremost factors in building a fine educational system for the then booming camp.

Owning to the interest he displayed in education he was elected a regent of the University of Nevada in 1908 and in 1912 was re-elected to succeed himself for a long term regency.

He was a member of Reno lodge, F. and A. M.; Reno chapter, No. 7, R. A. M.; De Witt commandery, No. 1 Knights Constantine; the Scottish Rite bodies of Nevada, and Kerak Temple of the Mystic Shrine.

He was grand commander of the Nevada Knights Templar, and had held other high lodge offices.

0

OFFICERS INSTALLED BY NEVADA CHAPTER

The officers of Nevada Chapter, No. 6, Royal Arch Masons, were installed at the last meeting at a joint installation in the hall of Roseville Chapter when the officers of four other chapters were also installed.

The installation followed a hot turked dinner at which there were present more than 130 members of the order from many places in northern California.

Samuel A. Clark of San Francisco, Grand High Priest, was present and Grand King Carl Bernard of Sebastopol, was the installing officer.

The new officers of Nevada Chapter are: Alfred Martin, H. P.; W. E. E. Meservey, K.; Charles H. Hoskins, S.; Benjamin Hall, C. of H and T.; J. F. Stenger, P. S. and Sec.; Wade Armstrong, R. A. C.; Richard J. Tremain, M. 3rd V.; C. E. Pederson, M. 2nd V.; D. T. Richards, M. 2nd V.; D. T. Richards, M 1st V.; H. R. Hoskins, S.

0

RAISING OF CHIEFS AT PONEMAH COUNCIL MEETING

At the meeting of Ponemah Council No. 6, Miss Lenore Steger was installed as the Pocahontas of the council for the coming term.. She will be assisted by Maggie Lewis, prophetess; Jessie Costa, Wenonah; George Gildersleeve, Powhatan and a corps of appointed officers. After the installation District Deputy Elsie Dent presented the past Pocahontas, Maggie Lewis, with her past Pocahontas emblem pin after which the council enjoyed light refreshments at Foley'sc Confectionery.

OLD SIERRA COUNTY MINE TO BE REOPENED SOON

The old Ruby mine, south of Downieville is shortly to resume operations on a more extensive scale, according to the Pacific Gold, Ltd., operators of the property, who have interested New York capital to finance the operations.

A tunnel 300 feet long will be run to tap a ledge which is known to be near by. Consideral gold was taken from a ledge during past operations. It is the intention of the present operators to prospect for the rich ledges which are known to be in the vicitty of the old stream bed which produced $750,000 in former years.

0

NEW ROSTER OF OFFICERS SEATED BY NEVADA LODGE

Thomas M. Harris. Inspector of the 12th Masonic District, assisted by W. E. Meservey as marshal, installed the new officers of Nevada Lodge No. 13, F. and A. M., at last their last meeting.

The officers installed were: William M. Gracey, W. M.; Wade Armstrong, S. W.; Christian E. Pederson, J. W.; Benjamin Hall, treasurer; Joseph F. Stenger, secretary; William E. Meservey, chaplain; Allen Z. Gracey, S. D.; Walter A. Carlson, J. D.; Elmer P. Gleason, marchal; Cary S. Arbogast, S. S.; William J. Treglown, J. D.; Ray Hays, tiler.

W. E. Meservey, on behalf of the lodge, presented to E. P. Gleason, the retiring worshipful master, a beautiful gold watch as a token of the Lodge's appreciation of his faithful service.

MRS. NANCY C. MOTT DIES SUNDAY NOON

The many friends of Mrs. Nancy Clark Mott will be grieved to learn of her death last Sunday noon. She had been in failing health since the death of her husband, the late George Morgan Mott, last February and had been confined to her home since November.

Mrs. Mott's entire girlhood was spent in Nevada City, with the exception of the years required to complete her education at the Young Woman's Seminary, at Benicia.

Mrs. Mott is survived by herdaughters Mrs. George L. Jones, Mrs. Guy Hyde Chick, Mrs. G. J. Rector; by her son, Capt. G. M. Mott and by the following grandchildren: Nelson Chick, Gilbert Chick, Mrs. Frances MacMillan, David Chick, Humphrey Chick, Dick Mott, John Mott, Dr. John Rector, Helen Frances Jones and Nancy Jones. A sister, the late Mrs. Cora Wadsworth, passed away three years ago.

Funeral services, which were private, were held from the late home on Nevada street Tuesday morning. Funeral arrangements were under the direction of the Holmes Funeral Home.

0

FOOD SALE POSTPONED

The home cooked food sale which the Ladies Aid Society of the Methodist Church was planning on holding next Saturday, has been postponed for oe week, ad will take place on January 31.

Six Weeks More

SAN FRANCISCO MEN TO OPEN OLD GRAVEL PITS

Development work is again to be started soon on the old Cherokee gravel pits, near Oroville. This is one of the pioneer hydraulic mines of the state which has a channel 1200 feet in width and from which millions of dollars have been extracted from the worked portions.

The new development work is to be carried on under the direction of Jack Sullivan and Jack Johnson of San Francisco, as president and vicepresidet and general manager, respectively, under the company name of the Old Cherokee Drift Gold Mining Company. Alex E. Wilson, 1213 Brown street, Oroville, is secretary and treasurer.

The plans for development call for the securing of electric power from the Pacific Gas and Electric Company requiring two and one-half miles of new line, and it is also stated that four miles of railroad are planned to connect with the Sacramento Northern. The gravel is to be handled by modern methods, using drag lines and conveying 4000 feet to the new plant which is to have a capacity of handling 4000 yards daily.

Various engineers, who have examined the ground, have discovered that in one portion of the channel commercial values in gold are contained in the boulders proper. These boulders will be crushed and their gold will add materially to the value of that particular deposit. The blue gravel deposit, capping the bedrock and underlying the boulders 45 feet, will be attacked by means of air drills and conveyors.

The Cherokee was one of the first to use the carbon lighting system to illuminate its mines at night. Its channel has a width of 1200 feet and the worked portions have yielded millions of dollars. Two miles of the channel are virgin ground, capped by basalt lava and pipe clay to a deptth of 700 feet, making prohibitive the hydraulic system and leaving the drift system as the only alternative means to secure the gold.

A system is also planned in an attempt to recover diamonds, which have been known to exist on this property since the early '50s. Many of these diamonds have been recovered by the hydraulic and sluice and by the pan processes.

0

OLD RIDGE RESIDENT SUCCUMBS AT OAKLAND

Martin Phelan, an old resident of North Columbia died last Saturday in Oakland. He was formerly engaged in mining there many years ago before leaving to make his home in San Franciisco and Oakland

He had attained the ripe old age of 98 years and was the last of a large family of brothers and sisters. He was born in Ireland and came to California when a young man and settled on the ridge.

He was a brother of the late Rev. Joseph Phelan; Sister Philomena, a Sister of Mercy; Kerr, Thomas, and Kate P helan, Mrs. Mary Phelan; Mrs. Honorah Mehan and Mrs. Margaret Dugan.

0

PIONEER OF PLAINS DIES IN SHERIDAN SECTION

Mr. and Mrs. Newton Karchner have returned from Sheridan where they attended the funeral of Mr. Karchners ag'ed mother, Mrs. Mary Karchner who died at her home near Sheridan on January 14th.

Mrs. Karchner was aged 94 years, 9 months and 22 days and was born in Ohio. In 1862, with her late husband, Harry Karcher she came to California across the plains in a covered wagon. They settled at Ophir, Placer county where they lived for a short while and then moved to Lincoln. In 1865 they settled on the ranch near Sheridan.

In 1862, with her late husband

She is survived by her daughters, Mrs. Nettie Hoffman and Mrs. Ida Jordan of Sheridan, Mrs. Belle Prisser of Sacramento and her son, Newton Karchner of this city. There is also one granddaughter, Edna Holland of Monterey.

The funeral was held at Lincoln with interment in Manzanita Cemetery near that place.

WILL INVESTIGATE INSURANCE FUND

The Senate on Wednesday passed a resolution introduced by Senators Williams and Cassidy as joint authors for a thorough investigation to be made of the ills of the compensation inurance, as relating to the mining industry. The rate now charged the mining industry of 9.42 is considered exorbinant and makes it almost impossible for companies to operate. What is more if a series of accidents happens in a certain mine the next year the rate is. boosted There has been cases known where only minor accidents have occured but insurance premium the next year was trippled.

Several mines in Nevada County are at the present time carrying their own insurance at a great saving over the State Compensation Insurance. In one instance the saving is reported to have been $80,000 for the year 1929 and last year the saving was even greater.

The State Mining Assaciation has been working on the Compensation Insurance for some time but have received absolutely no help from the officals of the Compensation Insurance Fund. One of the officers of the mining association stated that the Fund officials told the investigators that they would recive the information they needed but refnsed to answer questions With this in mind the new resolution will be armed with teeth and everyone interrogated will be forced to answer the questions asked to the best of their knowledge.

The resolution was rushed through at this time in order that the investigation could be carried on during recess of the State Legislature which will adjourn its first session today for a two weeks vacation. Although the investigation will be a hurried one it will be none the less a thorough one. It is expected that mine owners as well as the officiers of the Insurance Fund will be questioned.

A bill is now being drafted to eliminate mining from the Compensation Insurance.

0

CONTRACT LET ON DOWNIEVILLE HIGHWAY

The contract for building the last 4.14 miles of road between Downieville and Sierra was awarded to C. R. Adams of Nevada City.. His bid was $123,000.

The Bureau of Roads in San Francisco, opened the bids on Tuesday and Adams' bid was found to be the lowest.

The Bureau of Roads will have to report the action to Washington and it is expected the authoriation for the entering into the contract will be received early in February. Construction work will probably begin by first of March.

0

SHASTA COAL IS BACKED BY JERRY JONES

Jerry Jones of Chico, owner of a large coal acreage in the Big Bend of the Pit in Shasta county, addressed the mining association in Sacramento Saturday. Shasta county coal resources appeared highly probably, despite the introduction of natural gas from the Kettleman Hills, which halted the previously started coal development in the county.

F. W. Bunyan, metallurgist in charge of the Southern Pacific company steel foundry, was reelected to a third consecutive term as president of the Sacramento Chapter, Mining Association of California. C.S. Brooks was relected secretary, and W. F.-Gromely was elected vicechairman.

The chapter agreed to commit itself to a continuation of thepolicy of developing valley industries so as to provide an outlet for mineral products and thus stimulate mining.

0

STRAY BULLET WOUNDS COW

A valuable cow, belonging to Mrs. John M. Cooper, who resides was hit by a random rifle bullet a few days ago. The animal was grazing in the pasture near the Cooper home when struck.

A gash about si inches in length was cut in the cow's side. It is presumed that the shot was fired by some hunter in the vicinity.

S'MATTER

With the oil men wailing and gnashing their teeth and mining men awaitingimportaint matters the State of California remains without a Director of Natural Recources with whom these important matters may be taken up. The Governor no doubt finds himself in a most embarrassing position and resorts to procrastanation. Telegrams and letters for favorites daily flood the Governor's office, but he has stated that he will not make the appointment until after the Legislature reopens.

One of California's major industries is being threatened with destruction by the invasion into United States of crude oil from South America. It is said that gasoline can be manufactured in San Francisco at the exceedingly low rate of 2¼c a gallon. All ready four smaller companies have gone into bankruptcy and others are bound to follow. Only two companies are financially able at the present time to withstand a special commission of 22 men to go to Washington and confer with the President on the matter.

GRAND JURY RECEIVES INSTRUCTIONS BY COURT

The nineteen men and women who will constitute the 1931 grand jury were drawn in the superior court Monday morning by Judge Raglan Tuttle, who appointed John D. Tupper of Grass Valley foreman. The jury was retired to the supervisors room on the second floor where they organized by naming Clarence E. Grenfell of Grass Valley, secretary.

The grand jury later returned with a partial report in which it was recommended that the county clerk be given a deputy at a salary of $1800 per year. The sum of $500, which has heretofore been allowed the clerk for services in connection with the primary elections, will be eliminated and the clerk will also receive only ten cents per name for registration, instead of 15 cents as heretofore.

Judge F. T. Nilon appeared before the grand jury in relation to the matter and showed that the clerk and auditor of counties in lower classification than Nevada county received a much greater compensation than does the clerk and auditor of this county.

The present salary of $4000 was fixed more than 40 years ago, it was brought out, when the work of the office was much less than now, and when it could be performed with one deputy. Conditions have changed very materially in the four decades and it is impossible for the clerk and one deputy to handle the large amount of additional work of the office that now is performed by the clerk who is also ex-officio auditor.

The following constitutes the Grand Judy: John D. Tupper, foreman; Mrs. Hannah Stewart, O. A. Hardt, Mrs. Laura C. Nile, F. F. Cassidy, J. B. Young, J. W. Oliver, C. B. Grenfell, Harold Westbrook, Mrs. Viola Shirkey, C. F. Lobecker, Mrs. Reita Curnow, Harry B. Cox, E. M. Roesner, N. B.Bishop, Mrs. Marie Harris, Mrs. Lotta Bryant, Mrs. Mary Richards and W. A. Levee.

OLD AUTOS TO BE USED IN MAKING BRAKEWATER

A practical use for old, broken-down automobiles has been found at last. Decrepit, useles cars are now to be dumped into the sea to form a breakwater.

It is said that many motorists save their old razor blades to throw into the Grand Canyon on visits there, but now they may also tow their old autos to Ventura, where they will be dumped into the oceon to build a breakwater for a small boat harbor, according to plans reported to the California State Automobile Association.

The city of Ventura has applied to the war department for a permit to build the breakwater, it is stated.

Old cars will be dumped into the ocean and filled with sand and rock to form the barrier, according to plans of the city engineer.

NEW GOLD FIND IN RAND AREA IN SOUTH AFRICA

What is believed to be the most important gold discovery for a generation, meaning a great extension of the life of the Rand Goldfields, is reported from the East Rand section of the fields.

Ever since the Rand was first discovered there has been a peculiar gap several miles in extent in the reef near Boksburg. Countless thousands of dollars have been spent in searching for this lost reef, but hitherto unsuccessfully.

Five weeks ago prospecting was being conducted underground at what was a rapidly dying concern. Accidentally one of the workers, who had over-drilled at two thousand feet, located the reef, which in width and high grade ore gave every characteristic of being identical with the main reef.

Intensive mining was immediately carried out with increasingly satisfactory results. On a neighboring property similar high pressure operations have been commenced, resulting in the discovery of a thousand feet of excellent paying reef.

Meanwhile, some miles to the southwest, another important find has been made between the gap and the rich Sub Nigel mine in the far South. Steps arenow being taken to follow up the new reef through the Boksburg gap in accordance with the new indications.

Personal

C. Y. McCormick of Alleghany who has been here for the past few days for the benefit of his health returned to the Nevada City Sanitarium for treatment.

Mr. and Mrs. George E. King of Goodyear's Bar have returned from an extended visit in the Bay section. King is the forest rangr at Goodyears Bar.

Mr. and Mrs. Alfred McAllister of North Columbia were shopping in this city.

Mr. and Mrs. August Costa of Downieville, who have been visiting various parts of the state for the past few weeks, passed through Nevada City en route their home at Downieville.

Miss Carrie Naffziger arrived recently from San Jose and will spend some time in this city at her home on Grove street.

Carribean Arzalli has returned from Sacramento where his wife was recently operated upon. He reports her condition as favorable.

Mrs. Lotta Bryant, prominent Truckee club woman, returned home after attending the opening session of the Grand Jury.

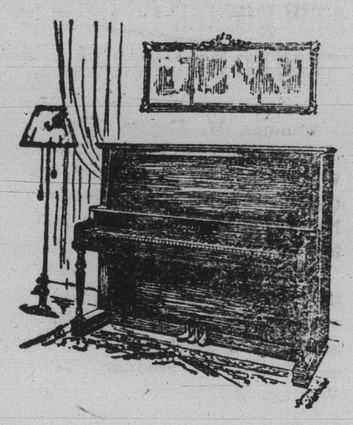

Joe Korn, representative of the Zellerbach Paper company of the Sacramento branch, was here on business.

Antone Lavezzola, proprietor of the St. Charles hotel at Downieville, was a business visitor in Nevada City Monday.

The BEST Gray Hair Remedy is Home Made

To half pint of water add one ounce bay rum, a small box of Barbo Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked, faded or gray hair and make it soft and glossy. Barbo will not color the scalp, is not sticky or greasy and does not rub off.

MINING ACTIVITIES ON PACIFIC COAST IMPROVE

The San Francisco Gold Mines Company is operating five stamps of its 10-stamp mill at Grizzley Flats, Eldorado county. The ore averages $20 a ton and mining and milling costs are running between $4 and $5 a ton, thus assuring a good profit. F. H. Neve of Los Angeles is president of the company and Rollins MacFayden is superintendent at Grizzley Flats.

Ore of sensational value is being exposed in sinking a shaft on the Quartz Mountain property, four miles east of Sutter Creek, Calif., recently taken over and being operated by Anderson Calylison, oil man of San Francisco ad Los Angeles and James R. Murphy, mining engineer of San Francisco. Additional work will be required to determine the importance and magnitude of the discovery.

The old Plumas Eureka mine at Johnsville, has been acquired under bond and lease by J. R. Brown and associates of Oakland, Details of their plans have not been learned yet.

Mining is to be resumed on a large scale at the Tumco mines, five miles north of Ogiby, Cal., according to President Sidney E. Mayer of the mines division of the San Diego chamber of commerse, in addressing a meeting of several chambers at Seeley. The program includes the establishment of milling facilities.

The 200-foot tunnel of the Kenmar Mining Company has cut three auxiliary channels running almost parallel to the noted old hard lava channel in the South Fork mine at Forest, California. All three channels show good values and will be worked later. Seventeen men are on the payroll and the crew will be increased as developments warrant. The eKnmar company is a syndicate of New York capitalists and J. Y. Owenby of Los Angeles has charge of their interests. Manager Owenby hastened to the mine as soon as he received the good news of the channel developments.

With a full line of equipment and supplies for the winter, a crew of 30 men is pushing development in the Tom and Jerry mine in the Mt. Oro district. James D. Stewart of Auburn is managing the mine for the Bickel placer mining interests of New Yrk.

The Nevada oMnarch Gold Mining Company at Forest will start soon to drive a new tunnel in the Bald Mountain mine to cut known ledges of ore at greater depth. Accordig to President and General Manager F. W. Powers of Los Angeles, who has recently returned from the mine, 10 men are engaged in development and it is intended to keep up that pace through the witer.

A long-term lease on the old Stafford gold property at Georgetown, has been granted the Swift Gold Dome Lode Mining Company, Ltd., of Los Angeles. Some good ore is in sight. Equipment has been ordered to be electrically operated, and arrangements are being made to drive a 700-foot tunnel to the ledge.

The Treadwell-Yukon Company, Ltd., R. J. Duncan, manager, Bodie, California, is dropping 10 stamps on ore mined from development at the Standard mine and will place its 250-ton flotation plant was designed as a test plant and will be run on ore from the Standard and other North-end mines.- and on approximately 500,000 tons of dump ore. Several crosscuts have been run to the west into tthe Noonday mine from the 700-foot level ofthe Red Cloud shaft. One crosscut struck five veins from 14 inches to four feet wide, with a streak of high grade that carries as high as $56,000 a ton in gold.

Drifts are run south on these veins into ground that is vergin below the 500 level

The Calaveras Development Company, San Andreas, has unwatered and retimbered its shaft to a depth of 300 feet and a mine crew is working in three shifts. The ore bodies will be resurveyed and checked immediately upon the completion of the shaft work. This is a 750-foot single-compartment and manway incline shaft from which about 3500 feet of lateral development have been completed. The Calaveras Development organization is composed of I. E. Selix, P. J. DeFlores and Sol Silverman, all of San Francisco, and W. L. Merrill, a mining engineer of Sacramento. Cyanide tests have recovered 92 per cent of the ore values and they plan to build a 100 ton plant of this type as soon as the mine justifies that step.—Mining Journal.

APPROPRIATIOS FOR SISKIYOU COUNTY

The following telegram was received by Daily Siskiyou News from Representative Harry L. Englebright and sets out the various sums appropriated for this section.

"In the interior department bill passed by the house, have succeeded in securing following appropriations for the operation and continuation of construction of Klamath project at Tule Lake: $362,000; for the geological survey of topographic work, Yreka quadrangle, $8000; hopographic work Dixie quadrangle, Lassen National Forest, eight thousand for cooperative topographic survey work for northern California, $50,000.

"For administration and physical improvements Lassen Volcanic National park, $50,300; for surfacing and oiling new loop road and trail construction $18,674. Total for Lassen Park, $237,040.

"For administration and physical improvements Yosemite Park, $558,600 and for road construction $300,000. Total for Yosemite Park $858,300. Total appropriations, $1,523,640."

RED CROSS FUND INCREASED

The Red Cross drought relief fund in Nevada City has been increased to $27.50 by contributions during the past few days.

Judge George L. Jones, chairman of the Nevada City Chapter, reports that the headquarters in San Francisco are asking that donations to the fund be remitted daily, which would seem to indicate that the need for the money is very pressing.

—0—

SISKIYOU TO OPPOSE BILL ON WATER LEGISLATURE

At a meeting of the board of supervisors and the Miners' Protective Association, held recently in Yreka, speakers from the county, as well as from Trinity county, went thoroughly into the matter of the proposed bill to stop the rolling of the waters of the Klamath and Trinity rivers.

It was the opinion voiced by each speaker, that the bill is a vicious thrust, at not alone the mining industry of northern California, but at every other industry in this section. It was Mso the unanimous opinion of the speakers that a hard fight must be made to protect these interests. With the legislature in session the time is necessarily short and the people were urged to get behind the blocking of the bill and put forth every effort to defeat the measure.

It was also pointed out that the power companies are threatened with closing their plants, should the bill become a law.

The board of supervisors was called upon to help in the protection of the industries of Siskiyou county, it being held by those present that every citizen of the county would be affected by the proposed bill. The Miners' Association passed a resolution objecting the bill and appointed a committee on finance to raise money with which to combat the measure.

A delegation from Trinity, composed of H. R. Given, District Attorney J. W. Bergen, A. C. Mecket, Henry Dannenbrink, C. A. Paulsen, J. H. Boyce, Supervisor Mrs. Boyce, Mary E. Smith were present at the meeting. Several members of the Trinity delegation addressed the meeting and told of the work being carried on by their county to defeat the bill.

Trinity county has hired Mr. Paulsen to work on the matter and go to the legislature to work against the passage of the bill. They have also authorized their district attorney and the chairman of their board of supervisors to make a trip to the legislature to fight its passage.

The finance committee is to raise all available funds and report at the next meeting to be held. The board of supervisors of Siskiyou county authorized the district attorney and the chairman of the board to look after the interests of Siskiyou before he legislature in the matter of the bill.

MANY EMPLOYED ON CALIFORNIA HIGHWAY

California's state highway system now includes a total of 6581 miles, representing an expenditure of nearly a quarter of a billion dollars, according to a summaried report by C. H. Purcell, State Highway Engineer, received by the California State Automobile Association.

Improvement hos been completed on 4769 miles, and 652 miles of road are under construction or reconstruction at the present time, the report stated. The total amount spent upon the highway system, up June 30, 1930, including maintenance and administration, was $221,138,412.82.

The mileage of state highways improved or under construction consists of 493 miles of graded roads; 431 miles surfaced with untreated crushed gravel or stone; 1245 miles of oil-treated crushed gravel or stone; 385 miles of bituminous macadam; 1654 miles of Portland cement concrete pavement, and 588 miles of asphalt concrete surface.
